

CHICO

⇒ the two-seat low-winged plane with the side-by-side seats, with the dual control, fixed controllable tricycle landing gear and mixed structure:

- **FUSELAGE** - is the all-metal riveted construction with an all-glass cabin. The engine cowlings are composed of two laminate parts.
- **TAIL-UNIT SURFACE** – are the profiled duralumin constructions, covered by the metal plate and partly by Ceconite
 - the horizontal tailplane unit is with a trim-tab equipped
- **LANDING GEAR** – from laminate, spring-mounted
 - type: nose-wheel
- **WINGS** – are the constructions with one main and one diagonal beam
 - are provided with the ailerons and flaps
 - 2 versions:
 - * wooden (covering = Ceconite)
 - * all-metal
- **CABIN** – is very roomy and comfortable
 - the room is divided by a centric control panel
 - is equipped with the ample instrument board
- **POWERPLANT** – a boxer engine is advised (for example: Rotax 912)
